- 2. Adjustments for segment income include inter-segment elimination and Group costs that have not been distributed to reportable segments. These group costs consist mainly of expenses of administrative departments.
- 3. Segment income or loss is adjusted between ordinary income on the consolidated statements of income and comprehensive income.
- 4. Since the 1st Quarter of the fiscal year 2021, the Company has changed its method of classification of business segments, integrating a part of the Steel business into the Primary Metal business. The classification change also applies to segment information for the 1st quarter of the previous fiscal year.
- 5. From the beginning of the fiscal year ending March 31, 2022, the Company applies the Accounting Standard for Revenue Recognition (Accounting Standards Board of Japan Statement No. 29). For this reason, we change the method of calculating revenue for business segments as well.

As a result of this change, compared to the previous method, net sales for the first quarter of this fiscal year decreased by 48,899 million yen in the Steel segment, 58,605 million yen in the Primary metal segment, 233 million yen in the Metal recycling segment, 33 million yen in the Foods segment, 116 million yen in the Energy & Living Materials segment, 14,051 million yen in overseas sales subsidiaries and decreased 273 million yen in the Other segment. In addition, segment income in the Steel segment increased by 890 million yen.
