Policy on Cash Allocation in the Medium-Term Business Plan

From Medium-Term Business Plan 2025

- ① Implement foreseeable and stable dividends that are less likely to be affected by performance in a single fiscal year
Dividend on equity ratio (DOE)*: Minimum 2.5%

*Dividend on equity ratio (DOE) =
Total dividends / Shareholders' equity at beginning of period

- ② Invest in growth within consolidated basic operating CF (after dividends) to maintain and improve financial discipline
Investment Amount = ¥80.0 bn

*Consolidated core operating CF =
Consolidated CF from operating activities – Changes in working capital

- ③ Ensure the profitability and efficiency of business assets while keeping an eye on the cost of capital and maintaining financial discipline
Agile and flexible acquisition of the Company's own shares
ROE* 12.0% or more (ROE > Cost of equity)
Net DER 100% or less

*ROE = Profit attributable to owners of the parent / Average shareholders' equity at term beginning and end

Shareholder Returns

Shareholder Return Policy

Pay stable and progressive dividends (minimum dividend level of 2.5% DOE) and flexible additional returns such as acquisition of the Company's own shares, etc., with the aim of increasing dividends over the medium to long term.

Amount returned to shareholders

FY 2023: Annual dividend per share increased by 15 yen from 170 yen to **185 yen** (interim 85 yen / year-end 100 yen) based on additional profit and cash flow from the sale of strategic shareholdings.

FY 2024: Annual dividend per share expected to be **210 yen** (interim 105 yen / year-end 105 yen), and **2 bil. yen for acquisition of the Company's own shares**.

3. Action to Implement Management that is Conscious of Cost of Capital and Stock Price

Action to Implement Management That is Conscious of Cost of Capital and Stock Price

- While ROE has remained high due to strong profitability, PER has remained low due to uncertainty over earnings stability and growth potential, and we recognize that there is room for further improvement in PBR.
- We have taken the following measures to improve earnings stability, reduce the cost of equity, and clarify the growth scenario.

Actions for Improvement (announced in Q2 results Presentation)

- ✓ Promote stakeholder understanding of the Company through **more detailed disclosure** of the Company's business and growth investments
- ✓ Improve core earnings by reviewing businesses and assets, and use the cash generated **to invest in growth and return profits to shareholders**, etc.
- ✓ **Improve the governance structure**, including risk management
- ✓ **Promote ROIC management** while being conscious of cost of capital
- ✓ **Introduce a restricted stock compensation plan** to provide incentives for sustainable growth in corporate value

Implementation

- ✓ **Disclose breakdown of ordinary income target of ¥70 bil. and key investment areas and themes of the ¥80 bil. investment** (p.10,13 of this document)
- ✓ Based on the cash allocation policy (p.11), we reviewed our assets and **reduced strategic shareholdings** (p.18), and **announced additional shareholder returns** (p.12).
- ✓ Established the Risk Management Department in FY2024 to strengthen the company-wide risk management.
- ✓ **ROIC to be part of performance evaluations** from FY2024
- ✓ **Introduced** in FY2023

4. Details by Business Segment

Steel Business Segment

Despite the contribution of Tanaka Steel Trading Co., Ltd., which became a consolidated subsidiary in FY2022, and increased "solution function" in domestic construction, the volume of steel products handled decreased mainly due to a decline in the number of new housing. In addition, the segment's revenue decreased as the profitability of some construction projects deteriorated.
